Introduction

Since 1975 imports have been rapidly increasing to reach €1,1 billion in 1983. In 1995 imports almost tripled and in 2008 total imports reached a pick of €7,4 billion. In 2014 total imports increased to €5,1 billion from €4,8 billion in 2013. Imports for home consumption have been following about the same trend as total imports and reached €4,9 billion in 2014 from €4,6 billion in 2013.

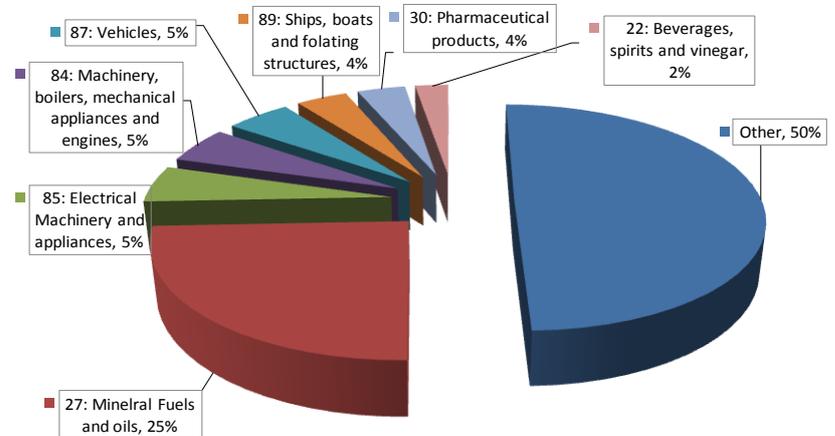

Mineral fuels and oils, electrical appliances, machinery and engines as well as vehicles and boats were the main products imported in Cyprus in 2014. The EU, Near and Middle Eastern Countries continue to be the main suppliers of Cyprus. Greece, Israel, UK, Italy and Germany accounted together for more than half of total imports to Cyprus in 2014. Israel and Greece were the leading suppliers of mineral fuels and oils and Greece and Germany were the leading suppliers of electrical machinery and appliances.

It is important to note that a large portion of imports of fuels and lubricants is consumed locally and the rest is supplied to airplanes and ships and therefore is recorded by the Statistical Service of Cyprus as re-exports.

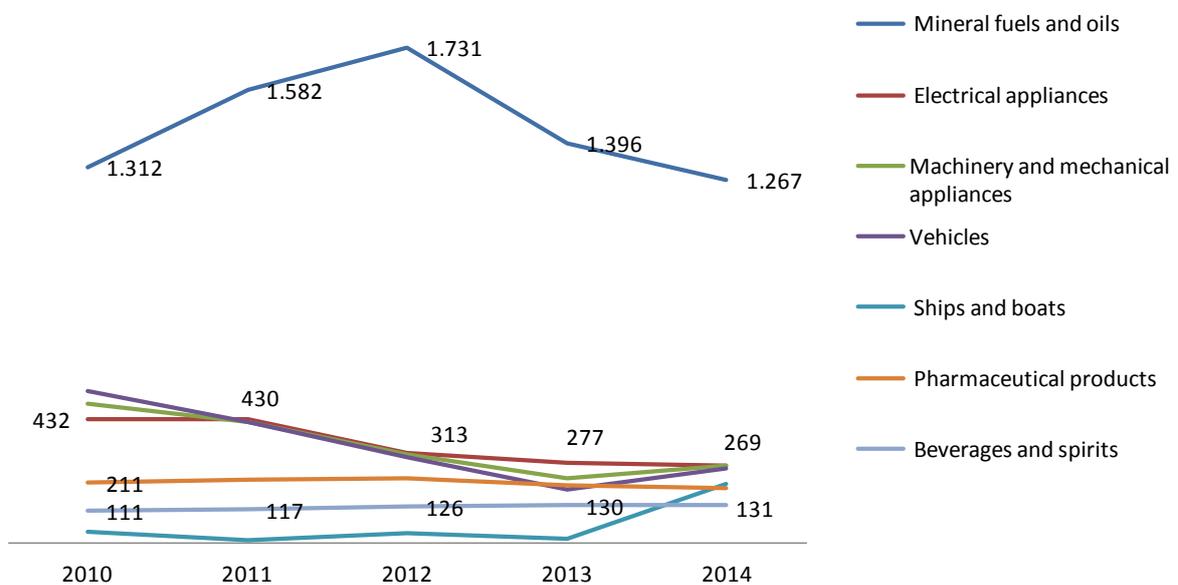

Total Imports by category

In 2014 total imports increased by 6,3% to €5,1 billion and consisted mainly of mineral fuels and oils (€1,3b, 25%), electrical appliances and machinery (€0,5b, 10%), vehicles and ships and boats (€0,4b, 9%), pharmaceuticals (€0,2b, 4%) and beverages and spirits (€0,1b, 2%). For more information see Annexes I and II.

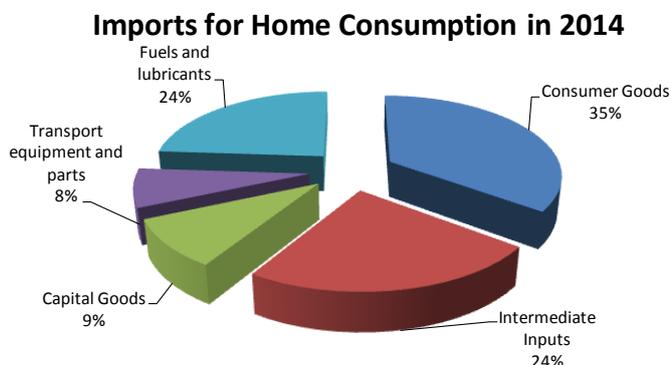

In the figure below we can see the upward trend in mineral fuels and oils during 2010 - 2012 and the continuous downward trend there on. Total imports of vehicles exhibited a remarkable decrease between 2010 and 2013 and an increase in 2014.

Total Imports for main categories (in €millions)

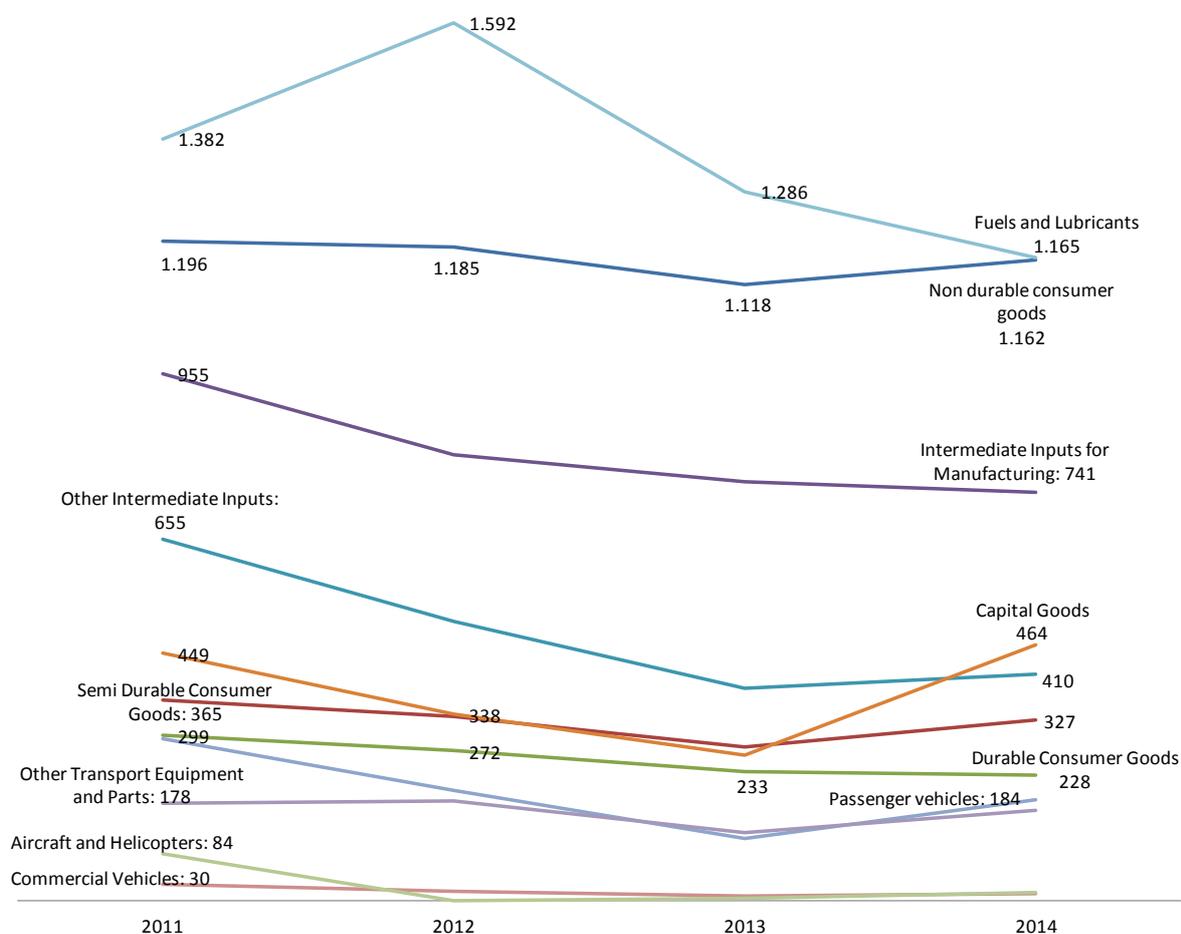

Imports for Home Consumption

Imports for home consumption had exhibited a downward trend between 2011 and 2013 and an increase of 6,5% reaching €4,9 billion in 2014. Consumer goods was the leading broad economic sector with 35% share, followed by fuels and lubricants (24%) and intermediate inputs (24%). See Annex III for more information.

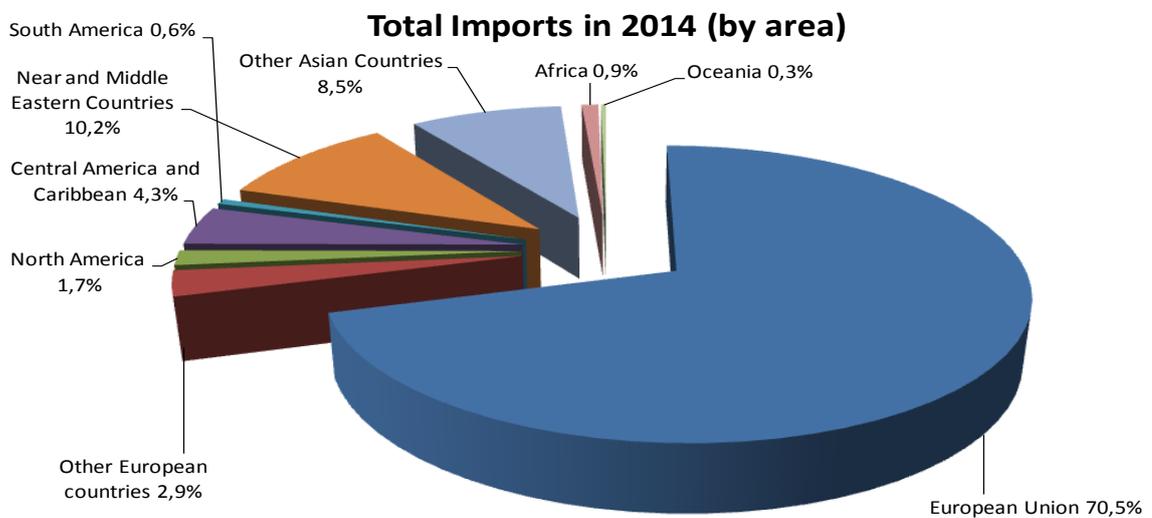

Imports for home consumption (in €millions)

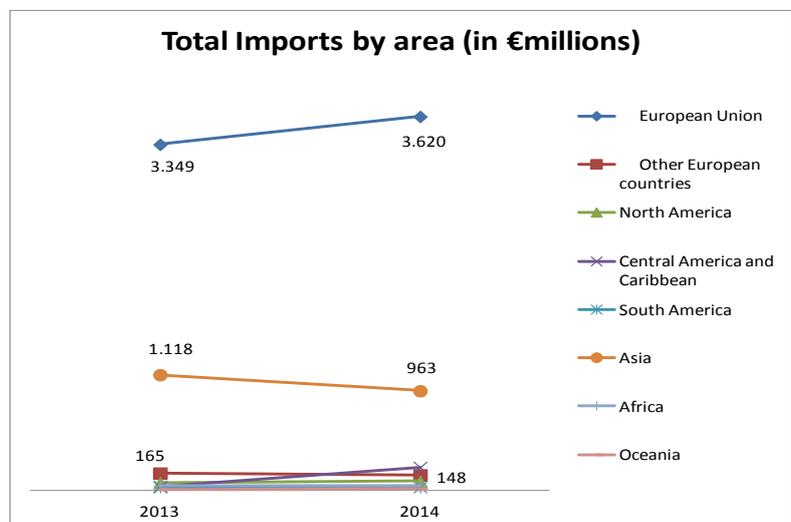

Total Imports by Area

In 2014 the EU was Cyprus' main supplier with a 70,5% (€3,6 billion) share in total imports in relation to 69,3% (€3,3 billion) in 2013. Near and Middle Eastern Countries had a share of 10,3% (€526 million) in relation to 14,8% (€717 million) in 2013. Africa, Oceania, North, Central and South America together accounted together for only 7,8% of total imports in relation to 4,1% in 2013.

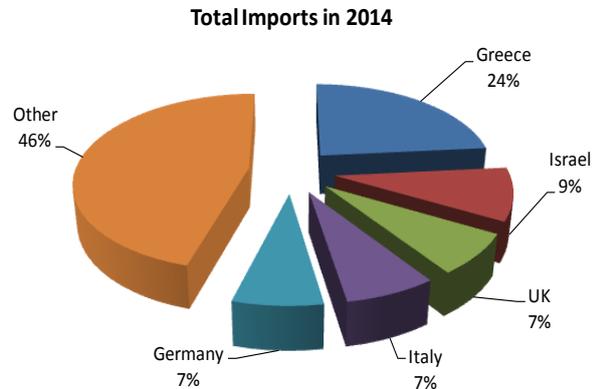

In 2014 there was a remarkable increase of almost 500% in total imports from Central America and Caribbean Countries.

There were increases in total imports from Oceania (+25,3%), North America (+17,3%), Africa (+9%) and South America (+4,2%). Total imports from Other European Countries decreased by 10,4%. See Annex IV for more information.

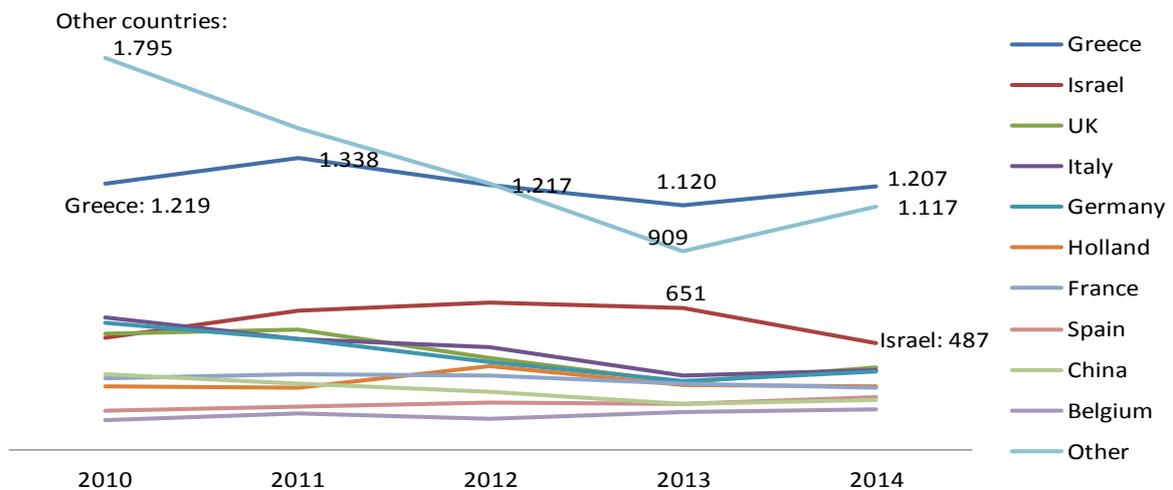

Total Imports by country

Greece continued to be the leading partner of Cyprus supplying in 2014 a quarter of Cyprus' total imports. Israel, UK, Italy and Germany accounted together for 30% of total imports. See Annex V for more information.

The downward trend of total imports from other countries in the figure below shows an increase in dependency on the top ten suppliers between 2010-2013 and a decrease in dependency in 2014.

Total Imports for selected countries (in €millions)

Total imports of mineral fuels and minerals originated primarily from Israel (35%), Greece (29%) and UK (12%). Imports of electrical machinery and appliances originated mainly in Greece (29%), Germany (12%), UK (9%) and China (11%). Engines, machines and boilers originated mainly in Greece (17%), Germany (14%), Italy (14%), China (11%) and Holland (11%). Vehicles were imported mainly from UK (29%), Germany (27%), Japan (9%), Spain (5%), Belgium, (5%), France (4%) and Italy (4%). Ships and boats were mainly supplied by the Cayman Islands (86%). Pharmaceutical products were mainly supplied by Greece (34%), Switzerland (10%), Germany (10%) and Holland (7%).
